Professional Summary

Artificial Intelligence & Machine Learning student with experience in predictive analytics, intelligent automation systems, and AI-driven web applications through internships, research, and hands-on projects. Skilled in Java, Python, React.js, and machine learning with research experience in recommendation systems, workflow automation, and intelligent decision-support frameworks.

Education

Institute of Aeronautical Engineering, Hyderabad

B.Tech in CSE (AI & ML)

Sept 2023 – Present

CGPA: 9.05/10

Gauthami Junior College, Hyderabad

Intermediate

Jun 2021 – Aug 2023

CGPA: 10/10

Bhashyam High School, Hyderabad

SSC

Jun 2012 – May 2021

CGPA: 10/10

Technical Skills

Languages: Python, Java, SQL (MySQL)

Web Technologies: HTML, CSS, JavaScript, React.js, Flask

AI & ML Tools: Pandas, NumPy, Matplotlib, scikit-learn

Developer Tools: Git, GitHub

Core Concepts: DSA, OOP, DBMS, Machine Learning, Artificial Intelligence

Soft Skills: Team Collaboration, Communication, Adaptability, Problem Solving, Analytical Thinking

Internships / Experience

Institute of Aeronautical Engineering, Hyderabad

Summer Research Intern (SRI 2026)

Apr 2026 – Present

- Developed the IntelliAttend multi-agent attendance automation framework using RelayOS for intelligent workflow orchestration, adaptive notifications, and automated attendance monitoring.
- Conducted research on multi-agent systems, workflow automation, and intelligent process optimization, contributing to technical analysis, documentation, and publication-oriented development activities.

Cubixso Solutions Pvt Ltd, India

AI Engineer Intern

Jan 2026 – Present

- Developed AI-assisted responsive web applications for client projects using React.js and modern AI development tools, improving frontend performance and enhancing user experience, resulting in a **30%** increase in client satisfaction.
- Researched, evaluated, and documented AI productivity tools for development workflows, contributing to faster workflow execution and improved development productivity.

Diamond Association Bangalore, India

Frontend Developer Intern

May 2025 – Jun 2025

- Collaborated with industry professionals and entrepreneurs to redesign and develop responsive business website interfaces using React.js, improving user experience and engagement by **40%**.
- Optimized frontend performance and page responsiveness through efficient rendering and design enhancements, reducing page load time.

Foundations of AI Internship, AICTE & Microsoft (Virtual)

AI & ML Intern

Apr 2025 – May 2025

- Developed an employee performance prediction model using Python and machine learning techniques, achieving accuracy of **85%** for HR analytics insights.
- Applied data preprocessing, model training, and evaluation techniques to solve real-world business problems, improving analytical efficiency and predictive performance.

Cognifyz Technologies (Virtual)

Java Development Intern

Feb 2025 – Mar 2025

- Applied core Java programming concepts to solve real-world coding tasks and hands-on development challenges during internship training.
- Strengthened problem-solving and logical reasoning skills by completing technical assignments focused on object-oriented programming, data handling, and application development.

Projects

PraveshPath: AI-Based Engineering Branch Prediction System

Jun 2025 – May 2026

- Developed a hybrid rule-based and machine learning framework using Python, Flask, and React.js to predict suitable engineering branches based on student academic profiles.
- Implemented predictive analytics and admission-focused recommendation mechanisms, achieving **95%** model accuracy for engineering branch allocation and admission decision support.

IntelliAttend: Multi-Agent Attendance Automation System

Dec 2025 – Mar 2026

- Developed a multi-agent attendance automation framework using RelayOS to streamline dataset validation, attendance shortage detection, personalized notification generation, and workflow monitoring for educational institutions.
- Implemented adaptive dynamic templates, condition-based filtering, and multi-channel communication (WhatsApp & Email), achieving **88.9%** workflow completion across 27 automated executions with centralized analytics and retry-based delivery tracking.

CareerSense AI: Hybrid Intelligence Engine for Career Path Discovery

Aug 2025 – Nov 2025

- Developed an AI-driven career recommendation system to analyze user skills, interests, and academic performance using machine learning techniques.
- Implemented predictive analytics and intelligent recommendation mechanisms, achieving **92%** prediction accuracy for personalized career path suggestions.

Employee Performance Prediction Using HR Data

Apr 2025 – May 2025

- Developed a machine learning-based workforce analytics system to predict employee attrition likelihood and performance ratings with **85%** prediction accuracy.
- Applied data preprocessing, feature analysis, and predictive modeling techniques to demonstrate the effectiveness of machine learning in HR analytics and employee performance evaluation.

Research & Publications

A Hybrid Rule-Based and Ensemble Machine Learning Framework for Transparent College Admission and Branch Prediction

Accepted at ICT4SD 2026

Jul 2026

- Proposed a hybrid rule-based and ensemble machine learning framework for engineering branch prediction and admission decision support.
- Implemented predictive analytics and policy-aware recommendation mechanisms to improve transparency and prediction accuracy in admission systems.

Multi-Agent Attendance Monitoring and Notification System Using Adaptive Dynamic Templates

Under Review for IEEE Conference Publication

Jun 2026

- Designed a multi-agent attendance automation framework using RelayOS for intelligent workflow orchestration and notification management.
- Implemented adaptive dynamic templates and multi-channel communication workflows, achieving **88.9%** workflow completion across automated executions.

CareerSense AI: A Hybrid Intelligence Engine for Smart Career Path Discovery

Under Review for IEEE Conference Publication

Jun 2026

- Developed an AI-driven career recommendation framework using machine learning and predictive analytics for personalized career path discovery.
- Achieved **92%** prediction accuracy using intelligent recommendation models based on user skills, interests, and academic performance.

Certifications

Certificate on AWS Cloud Foundations — *AWS Academy*

Nov 2025

Certificate on Artificial Intelligence Fundamentals — *IBM SkillsBuild*

Oct 2025

Certificate on Building LLMs using Prompt Engineering — *Nvidia*

Jul 2025

Technical Training in Artificial Intelligence & Generative AI Learning Path — *Microsoft Learn*

May 2025

Certificate on Databricks Generative AI Fundamentals — *Databricks*

Apr 2025

Certificate on Prompt Engineering for Everyone — *IBM*

Apr 2025

Certificate on Introduction to Generative AI — *AWS*

Apr 2025

Certificate on Career Essentials in Generative AI — *Microsoft & LinkedIn*

Feb 2025

Coding Profiles

LeetCode – 100+ Problems Solved, 2 Badges.

HackerRank – 50+ Problems, 1 Badge.

GeeksforGeeks – 130+ Problems Solved.

Leadership

The Compendium

Senior Reporter and Head of DomainSep 2023 – Sep 2025

- Led a team of 15+ student reporters covering tech and non-tech events. Published daily campus news and updates across social media platforms, improving student engagement and digital outreach through consistent event coverage and content publishing.

e-Designing and Marketing

Content Writer and Head of DepartmentJun 2024 – Apr 2025

- Created engaging technical content for social media platforms, prepared official documentation for college events and workshops, and contributed to increased digital engagement across platforms.

e-Designing and Marketing

Student Academic MentorSep 2024 – Apr 2025

- Mentored students in core subjects by simplifying technical concepts, providing academic guidance and project support during workshops and bootcamps, and encouraging peer learning through structured mentoring sessions.

Street Cause IARE

Volunteer and CoordinatorOct 2023 – Sep 2024

- Led community outreach initiatives for schools and orphanages, organized social drives and fundraising activities, and promoted student leadership through sustainable development efforts.

Achievements

Academic Excellence Award 2026 - IARE	Mar 2026
Top Contribution Award 2025 — e-DAM	Jan 2025
7.0 Band in IELTS	May 2023
Gold Medal — Level-1 NASO Exam	Mar 2020
Srinivasa Ramanujan Award — Maths Olympiad	Dec 2017
