Madki Sai Charan

saicharanaiml.edam@gmail.com +91 8660536409 LinkedIn GitHub Portfolio

Professional Summary

CSE (AI & ML) undergraduate with hands-on experience in AI engineering, machine learning, software development, and intelligent automation. Skilled in Java, Python, SQL, React.js, and Flask, with practical experience building AI-driven applications and data-centric solutions. Strong foundation in DSA, OOP, and DBMS, complemented by conference research, technical projects, and student leadership.

Education

Institute of Aeronautical Engineering, Hyderabad *Sept 2023 – Present*
B.Tech in CSE (Artificial Intelligence & Machine Learning) CGPA: 9.10/10

Technical Skills

Programming Languages: Python, Java, SQL
Databases: MySQL
AI & Machine Learning: Prompt Engineering, Predictive Analytics, Recommendation Systems
Web Development: HTML, CSS, JavaScript, React.js, Flask
Automation & Integrations: n8n, Workflow Automation, Gmail API, Google Sheets, OAuth 2.0
Developer Tools: Git, GitHub

Internships / Experience

Institute of Aeronautical Engineering, Hyderabad
Summer Research Intern (SRI 2026) *Mar 2026 – Present*

- Developed a multi-agent attendance automation framework using RelayOS with adaptive notifications and workflow orchestration, achieving **88.9%** automated workflow completion.

Cubixso Solutions Pvt Ltd, India
AI Engineer Intern *Jan 2026 – Jul 2026*

- Developed AI-assisted responsive web applications for client projects using React.js and modern AI development tools, improving frontend performance and enhancing user experience, resulting in positive client feedback.

Projects

PraveshPath: AI-Based Engineering Branch Prediction System *Jun 2025 – May 2026*

- Developed a hybrid AI-based Engineering branch prediction system using Python, Flask, and React.js, achieving **95%** prediction accuracy for admission decision support.

EduNotify AI: Intelligent Student Communication and Email Automation System *May 2026 - Jul 2026*

- Designed and implemented an automated workflow platform using n8n, Gmail API, OAuth 2.0, and Google Sheets to streamline large-scale academic communication.

Research & Publications

A Hybrid Rule-Based and Ensemble Machine Learning Framework for Transparent College Admission and Branch Prediction
Presented at ICT4SD 2026 (Springer Nature) *Jul 2026*

- Proposed a hybrid AI-based admission and branch prediction framework using ensemble machine learning and policy-aware recommendation mechanisms for transparent decision support.

Achievements

Best Paper Presentation — ICCET 2026 *Jul 2026*
Academic Excellence Award 2026 - IARE *Mar 2026*
Top Contribution Award 2025 — e-DAM *Jan 2025*

Certifications

Generative AI Essentials: Using LLMs to Work with Data — *IBM SkillsBuild* *Oct 2026*
AWS Cloud Foundations — *AWS Academy* *Nov 2025*
Building LLMs using Prompt Engineering — *Nvidia* *Jul 2025*
Databricks Generative AI Fundamentals — *Databricks* *Apr 2025*

Coding Profiles

LeetCode – 100+ Problems Solved, 2 Badges ; **HackerRank** – 50+ Problems, 1 Badge ; **GeeksforGeeks** – 130+ Problems Solved.

Leadership

The Compendium
Senior Reporter and Head of Domain *Sep 2023 – Sep 2025*

- Led a team of 15+ student reporters, coordinating content collection, reporting, and timely publication across digital platforms.
